SOCIAL/CLINICAL RESEARCH MANAGER

Description of Work:

The primary role of this position is to manage and supervise all activities necessary to operate one or more social research projects, programs, or work settings. Work requires knowledge of social research concepts, practices and procedures, project/program requirements, planning and evaluation. The range of duties includes, but is not limited to: project/program administration, organizing and planning work operations, human resources management, communication, and related business and administrative responsibilities. Positions in this banded class plan, organize, conduct, and evaluate social research. Work is performed to support research or develop public programs and policies. Social research includes behavioral, economic, educational, public health/medical, public policy, sociology, and closely related areas. Social researchers create or validate theories through data collection and analysis with goals of description, explanation, prediction and decision-making.

Competency	Definition
Knowledge – Professional	Possesses a high level of professional skill, knowledge and ability to apply specific/content area(s) and keeps up with current developments and trends in area(s) of expertise. Knowledge of and ability to apply the social research principles, methods and processes (technical and/or theoretical) used to conduct a systematic and objective inquiry including study design, methods of data collection and analysis, and interpreting and reporting results; knowledge of applied research methods and statistical procedures and related information technology. Provides technical supervision and knowledge transfer.
Social Research Project/Program Administration	Plans, coordinates and administers social research project(s)/program(s) objectives, operations, and timelines. Manages resources, which may include budget where applicable, and monitors activities associated with the project(s)/program(s) goals and objectives.
Human Resources Management	Recruits, selects, trains, counsels, disciplines, and evaluates performance of employees to retain a diverse workforce; plans for and supports employees in career development opportunities. Provides technical supervision. Administers and assures compliance with human resources policies and procedures.
Strategic Analysis	Uses a variety of information sources internal and external to the organization to identify issues and trends; studying relevant information to identify methods to achieve goals of the project(s)/program(s), or meet the vision of the organization.
Communication	Conveys clear and concise information verbally and in written form; effectively presents ideas to individuals or groups to ensure that they understand the information and message. Presents social research results and summaries; adheres to reporting requirements of social research project(s)/program(s); contributes to the writing of publications and reports.

Note: Competency statements are progressive and not all competencies apply to every position/employee. Evaluate only those that apply. For positions with some supervision consider the highest level of professional work performed.
